

LP90™ SERIES RATCHETS

The perfect balance of strength and accessibility

- Low Profile
- 4° Arc Swing

EST 1921—MADE IN THE USA

IDEAL INDUSTRIES INC.

TESTED TOUGH

Perfect Balance of Strength and Precision

Innovative 90 tooth ratchet mechanism

- Low 4° arc swing for ultimate access in the tightest spaces
- Greater precision to engage fasteners quicker

Maximum strength and reliability

- Engineered and tested to deliver the strength & durability technicians have trusted from SK ratchets for over 90 years
- Backed by a lifetime warranty

**PROUDLY
MADE IN USA**

With U.S. made steel, components, labor, design and engineering

Classic

New

Lower-Profile Head

- Thinner head allows easy access in the tightest spaces
- Sealed head design reduces potential for internal contaminants

Quick Change Lever

- Effortlessly change drive direction
- Easier to change than flush mount switches

Re-Designed Ergonomic Handle

- Contoured handle allows multi-position grip
- Superior comfort that is tough on fasteners, not your hand
